Dear Sir/Madam:

This Declaration is submitted to establish prior invention of the subject matter of the present patent application. The person making this Declaration is the inventor, Sterling Mortensen.

Accompanying this Declaration are Exhibits A through D to establish conception of the subject matter of the present patent application prior to the filing date of July 2, 2001 of U.S. Patent Application Pub. No. 2002/0035697 coupled with due diligence from prior to the filing date to the filing date of the present patent application (i.e., constructive reduction to practice).

Exhibit A (3 pages) includes an HP Invention Disclosure submitted by the inventor Sterling Mortensen and received by the HP Legal Department on June 8, 2000. In addition, this invention disclosure was witnessed on May 22, 2000. This invention disclosure was assigned HP Patent Disclosure No. 10004428 and describes subject matter of the present patent application.

Exhibit B (2 pages) includes an invoice dated July 1, 2001 from Dicke, Billig & Czaja to Hewlett-Packard Company for the preparation of the patent application based on HP Patent Disclosure No. 10004428. From this invoice, it can be seen that preparation of the application occurred at least between May 15, 2001 and June 26, 2001 (i.e., prior to the filing date of U.S. Patent Application Pub. No. 2002/0035697). This application was one of a number of unrelated cases which patent attorneys of Dicke, Billig & Czaja worked reasonably hard on during this period and carried out expeditiously.

Exhibit C (2 pages) includes an initial email of July 13, 2001 from patent attorney Steve Dicke of Dicke, Billig & Czaja to HP Managing Attorney Steven R. Ormiston forwarding a draft of the patent application prepared for HP Patent Disclosure No. 10004428
